

FOUR "METERS" IN ONE

ORDER NOW: GML ENTERPRISES * 3311 Thomas Road * Oxford, MI. 48371-1442 * 248-628-4445

Models #AM-2 & #DM-2 INSTALLATION:

Cut or create an opening in your panel that is 5 inches wide by 3 inches high. Pass the wall transformer through this opening before placing the Meter face plate over the opening. Fasten the meter with four (4) #4 screws or bolts. Refer to the drawing below: Install the wiring for CAB #1, (Throttle #1) to terminals 1,2 & 3 of the 6 lug terminal strip on the backside of the meter. Plug the wall transformer into a 120 volt receptacle, switch the meter to VOLTS or AMPS, select CAB #1 and test the operation. Unplug the transformer to install the wiring for CAB #2 (Throttle #2) to terminals 4,5 & 6 also shown in the drawing below. Plug the wall transformer in, test and ENJOY..
